

## **Update - Dim Tyrbinau / No Turbines Brechfa East**

**June 2026**

### **A brief update**

Dim Tyrbinau is currently opposing the Trydan Glyn Cothi project, as well as supporting other campaigns around the country. We have agreed, to help make this focus clearer, we will remove “and Pencarreg” from our name. Nant Ceiment on Mt Pencarreg has been cancelled, so there is no work to be currently done on this. On a neighbouring site 2x125 turbines will be erected soon. Planning was passed 10 yrs ago so there is no opportunity to object to this. However we will remain vigilant!

**IMPORTANT EVENT! QUIZ NIGHT FUNDRAISER** - arranged for 25th June. See below for details. For those not fans of a quiz, come for a chat, drink and raffle, from 6pm. Food available too!

**Writing to New Senedd Ministers** - As the new ministers settle into their roles, we need to make our voices heard regarding our concerns about the development of industrial wind farms, on our doorsteps, and Wales wide, also our concerns about the policies that are driving these decisions. Even writing one email, to an appropriate Minister, will help to keep the pressure on.

**Ministers email addresses and roles can be found as an attachment to this update. A newsletter will be issued soon covering topics you might like to raise with them**

**Where is TGC in the planning process?** - Many responses were sent to PEDW highlighting concerns about the Scoping Direction Report submitted by Trydan Glyn Cothi at the beginning of this year. PEDW has been under pressure to process all the information. The PEDW Scoping Direction Report (A response to TGC), made some encouraging points. Most of the areas TGC requested to be “scoped out”, were directed by PEDW to be “scoped in”. This means that more rigorous and more broad assessments and research will need to be carried out by TGC prior to their planning application. We can, collectively take some credit for the results, thanks to the efforts of all those who wrote in!

For those who wish to scrutinise the PEDW Scoping Direction Report. Go to the PEDW portal and enter the case number **SIP CAS-04623-L7W9D0**. Look for the document dated **01/06/26**

If you need further support on how to access the portal email us via [dimtyrbinau.org](mailto:info@dimtyrbinau.org)

The next step in the process is the Pre-application consultation (PAC). We think this will be carried out online towards the end of this year.

***We are still looking for someone with IT skills to help manage our Social Media.***

***We are also looking for someone, with a planning background, to advise on approaches when we need to respond to PEDW. With the right help we could build our case more effectively.***

***If you can help with either, please get in touch.***
